PROFILE

Salutations! I am Tudor-Ioan Gălățan, a Computer Science student in Cluj-Napoca. With a strong background in sports and a passion for fitness, I challenge myself to improve every day and stay disciplined in all areas, especially in my passion for technology. My greatest motivation comes from using my social skills to connect with others, identify their needs, provide technical solutions, and contribute to impactful projects. My goal is to create a positive change by combining my soft and technical skills.

EXPERIENCE

Societatea Hermes

Manager of the Events Department — 2024 – present

- Took initiative in organizing trainings, events, and competitions for students in our faculty as well as creating new concepts for networking opportunities in our organization
- Managed a team of 70 volunteers by engaging them in meetings, energizing games, and ensuring they created strong bonds and a sense of community
- Represented our association at DevFest, an IT conference in Cluj-Napoca

HR Volunteer — 2023 – 2024

- Coordinated the Emergency department at the 2024 edition of Hermes Hackathon, ensuring seamless staff availability and communication between hosts and corporate ambassadors
- Volunteered in organizing 2 editions of CariereinIT, fostering a welcoming atmosphere, encouraging proactive attitudes, and facilitating networking opportunities with company professionals.

Faculty Council — 2024 – present

Student Representative for the Romanian Informatics Constituency
- Maintained honest communication between the council and my colleagues
- Became familiar with issues presented by my colleagues and supported their interests in council meetings, communicating aspects to headmasters

Uniunea Studenților din România — 2024 – present

Volunteer
- Participated in the 'Leadership School' project, where it was required of me to explore and further strengthen my leadership skills. Through this valuable experience, I discovered my passion for mentoring and public speaking
- Participated in the 'Project Writing' program where I developed important skills in leading a project, conceptualization, and structuring

Sales Assistant — 2023 – 2024

H&M
- Became familiar with the work environment
- Learned important and efficient time management by remaining proactive in my education and extracurricular activities while also taking extra shifts
